“ *I thought Donald was a personal fellow. As a patient he shared his liking of diving with me and he could have been my friend.*

He surgically performed a Tarsal Tunnel Release and was supposed to remove a tumor which he said he done successfully. However I had my doubts he ever removed that tumor and just performed the Tarsal Tunnel Release because he subsequently called the M.R.I, an M.R.Lie. Which I thought was funny at the time.

Three years later I did not think so as a subsequent M.R.I., found at that site a 1x3x5 cm tumor at the same site the surgery was supposed to be performed to remove the growth in the first place. I can't tell you how ballistic I went and how angry I still am in 2020 at this as I had to get another physician to remove this.

This was such a huge failure that I can't even imagine how it is possible for a physician to miss.

It is this with that sad commentary that I leave my note to Doc. Arenson. I am pissed and am telling you this so we are complete as I believe in open, honest, two-way communication. God Bless You. May your family be at peace. But your error and failure has caused me a lot of hardship to this day.

“ February 02, 2014 Don and I were classmates at the Illinois College of Podiatric Medicine, and shared rotations with each other. I have often mentioned to my wife that Don was one of the brightest minds that I ever encountered. He was a kind and compassionate classmate who I looked to as a mentor and an inspiration to higher achievement. I am very sorry for your loss. Michael DiGiacomo D.P.M. of Oakland, California

“ Dear Laura and family,
We just learned of Don's passing.
Although we hadn't seen Don in 30 plus years, we have such fond memories of our limited time with an extraordinary man!
I, Art, had a chance to catch up with Don thanks to Facebook.
Our sincerest expression of sympathy for such a terrible loss for the family, and for our profession. Art and Sherry Wolfson, Yorktown, VA

“ My deepest sympathies and prayers are with Laura and the entire extended Arenson family. I had the privilege to work with Dr. Don as a vendor to his podiatry practice. He always treated me as though I was a peer and a friend. He had many gifts and was overall a tremendous person. It has been a couple years since we last worked together and I regret that we will not have another chance.

“ One of the very very few that made an everlasting mark on my professional soul. From the 1st day I met him in 1982 to the last time I saw him in 2013, I wanted to thank him for the academic inspiration and truth in academics. A rare balance of balance of humility and talent.

My condolences to the Arenson family. Dr. Arenson had a very positive influence on me from my earliest days as a podiatric medical student in Chicago. He was bright, articulate, and an outstanding professional role model. Always generous with his time teaching students excellence in podiatric medicine and surgery.

He was a true credit to our profession and will most certainly be missed by his patients and colleagues.

“ January 11, 2014 I was very saddened by the passing of my friend and colleague, Dr. Don Arenson. He was not only an outstanding doctor, but a delightful, pleasant person. Whenever I saw him at Alexian Brother's Hospital, he was smiling. His care was always right on for me as a patient, and for many of my patients who I referred to Don. He was outstanding. We will miss his smile, his friendship and his skill greatly. My deepest condolences to his family for their loss.
